February 2018

Indicative Initial Offer for 200 shares	Projected Return	Location
\$31,300 to \$32,600 initially	\$75,725 gross	44km north of Gisborne

Both the Indicative Initial Offer and the Projected Return above have been calculated using the assumptions set out in this Investment Report. Changes to the assumptions can have a material effect on these figures.

A holding of 200 shares in the Baywood Forest investment is available for purchase by tender facilitated by Forest Enterprises.

A prospective buyer must bid for all of this holding.

NOTE: Return amounts expressed throughout this Report are based on a 200 shareholding.

## What will the investment cost?

#### **Indicative Initial Offer**

## \$31,300 to \$32,600 for a 200 shareholding

An indicative Offer of \$31,300 represents an 8%tax paid compounded return per annum while an indicative Offer of \$32,600 represents a 7.5%tax paid compounded return per annum over the investment term. These indicative Offers are for a holding of 200 shares in Baywood Forest and represent the net present value of the Cashflow Projection set out on page 11, assuming a marginal tax rate of 33 cents in the dollar.

The indicative initial Offer calculations are provided as a basis on which prospective investors may determine the amount they wish to tender as a purchase price. Changes in the assumptions underlying the Cashflow Projection can have a material impact which may increase or decrease the return and Prospective Investors should take account of this reality when reflecting on an Offer.

In October 2012, investors voted in favour of a carbon lease proposal that has the effect of annual rental payments being received from New Zealand Carbon Leasing (No 1) Limited in exchange for the risks and rewards of participation under the Emissions Trading Scheme (ETS) being the responsibility of the carbon lease company. If there are future changes to the Climate Change Response Act that has the effect of removing the ETS then the carbon lease payments would cease, and the indicative value of the investment would reduce.

The annual Investor Administration Fee of \$40 per Investor per investment per annum is only paid once, regardless of the number of shares held in the Baywood Forest Investment. This fee is included in the Cashflow Projection before deducting the multiple investor adjustments for those investors who own more or less than 200 shares, where a credit or debit adjustment is made for their proportionate share of the \$40 Administration Fee charged per 200 shares.

### **Projected Future Payments**

Forestry investment is by nature a contributory investment where investors pay the funding required each year, in addition to the Initial Price.

Currently there are no projected future payments for one holding of 200 shares in Baywood Forest as the Calls are offset by the carbon lease income.

## **Investment Profit (Tax Loss)**

Under current New Zealand tax law, any profit each year will be subject to tax at the investor's marginal tax rate. Resident Investors are entitled to a share of any tax losses and are advised of the amount in May each year.

As set out in the Cashflow Projection on page 11, as there no future annual Call payments, the total projected tax savings for one holding of 200 shares in Baywood Forest are now minimal. Non-residents (such as Overseas Persons, see page 5) should check with their Tax Adviser.

Partners on the Register of Partners at the end of the Limited Partnership's (LP) financial year will be allocated the full year's profit or loss for tax purposes pro rata to their respective LP shares. It is important to note that allocation will have no regard to transfers during the year, so any transfer price should reflect the consequences of whether the buyer or seller has paid any Call or received any Distribution during the year of transfer.

## **Investment Changes**

Going forward, Forest Enterprises investors may vote on a number of key decisions, namely on the harvest management fee and any proposals for collective harvest by joint venture, and later, on second rotation investment options. Changes that relate to harvesting timeframes will as a consequence impact the Internal Rate of Return which can be calculated using the purchase price, eventual investment return, and timeframe of when the investment return is provided. Other than harvest timing, this Investment Report does not reflect any possible future changes to be voted upon by investors. Further details will be provided to investors at the appropriate time. Copies of any client communications to date may be requested.

## What is the projected return?

## **Projected Return at Harvest**

## \$75,725 gross in years 2028-2031 for a 200 shareholding

The table below shows the projected gross return at harvest for one holding of 200 shares in Baywood Forest at current log prices and if log prices increase or decrease by 10%

Year ending	Current Log Prices -10%	Current Log Prices	Current Log Prices +10%
2028	\$13,317	\$17,153	\$20,989
2029	\$13,023	\$16,927	\$20,831
2030	\$12,706	\$16,556	\$20,406
2031	\$21,232	\$25,089	\$28,945
Total	\$60,278	\$75,725	\$91,171

For the purposes of the projection it is assumed that Baywood Forest will be harvested over 4 years. **Please note that variations around this timing are likely as noted on page 3**. Refer to page 8 for details on how the projected return at harvest has been calculated.

### **Harvest Tax Issues**

Under current tax law, harvest proceeds will be paid to investors as a gross amount and investors will be responsible for paying tax at their marginal rate. The net return to investors will depend on their marginal tax rate at the time of harvest. Investors can choose to spread harvest income between the year of harvest and any one or more of the three preceding income years. In addition, investors will receive their share of the value of the land as a capital payment (non-taxable), when sold. Non-residents (such as Overseas Persons, see page 5) should check with their Tax Adviser.

As set out in the Cashflow Projection on page 11 the total projected net distribution at a tax rate of 33 cents in the dollar is \$61,573 for a holding of 200 shares.

### Selling the Investment Before Harvest

Shares can be sold at any time before harvest but the sale is deemed to be a disposal of the underlying assets (land and trees). The sale of trees is a taxable event, whereas the sale of land is not. Section HG 5 of the Income Tax Act 2007 creates a \$50,000 threshold (in any 12-month period), under which this taxation treatment does not apply.

## Where is Baywood Forest?

Baywood Forest is located approximately 44km north of Gisborne, in a property comprising 266.92 hectares and is the dark green area on the map (right). Gisborne has an international log export port and processing mills.

Baywood Forest is adjacent to Forest Enterprises' Pukerewa Forest investment. Several other Forest Enterprises forest investments are in the vicinity (light green areas on the map).

A more detailed location map can be found on page 13.

## **How do I invest in Baywood Forest?**

#### **Tender Process**

Forest Enterprises operates a market for the sale and purchase of shares in their existing forestry investments. The purpose of the market is to enable existing Investors to liquidate their investment and to allow prospective Investors to purchase investments in established forests. Shares in the Baywood Forest investment may be purchased by tender on this market for the entire holding of 200 shares.

An example Tender Form with Terms and conditions can be found on page 14. To submit a tender, complete the Tender Form and return it to Forest Enterprises (refer to Contact Details on page 2).

The total purchase price you tender may be within, above or below the indicative initial Offer on page 3. Prospective investors usually set their tendered purchase price based upon a projected investment rate they wish to achieve for the duration of the investment.

## Who can invest?

An eligible Forest Enterprises investor is:

- an individual who has attained the age of 18 years, investing on their own or jointly
- or a company, a trust or a partnership
- and, may be a New Zealander or an overseas person

#### **Overseas Persons**

Overseas persons can invest provided no more than 25% of the investment is held by overseas persons. The Overseas Investment Act 2005 defines an **overseas person** as an individual who is neither a New Zealand citizen nor ordinarily resident in New Zealand. It is also required that overseas persons obtain a New Zealand (NZ) IRD tax number and open a NZ bank account. Further information can be obtained by overseas persons from Forest Enterprises if relevant.

## **Verifying Customer Identity**

As a Financial Services Provider, we are required under the New Zealand Anti-Money Laundering and Countering Financing of Terrorism Act 2009 to undertake due diligence on all new customers to prevent the criminal use of funds. This involves us:

- gathering information about customer identity and residential address, and
- verifying a customer's identity, to ensure the customer is who they say they are.

## **Investment structure**

#### **Limited Partnership**

The Baywood Forest Investment is a Managed Investment Scheme (MIS) under the Financial Markets Conduct Act 2013 (FMC Act).

#### **Limited Partnership and General Partner**

The Baywood Forest Investment comprises a limited partnership registered under the Limited Partnerships Act 2008 called Baywood Forest LP (the Limited Partnership) with one general partner which is a registered company under the Companies Act 1993 called Baywood Forest GP Limited (the General Partner).

## Shares in Limited Partnership and shares in General Partner

Investors in the Baywood Forest Investment have limited partner shares in the Limited Partnership plus an equivalent number of company shares in the General Partner. The Limited Partnership Agreement requires that the 32,000 issued shares in the GP Company Partnership, are to be held pro rata to the number of Limited Partners shares held by the limited partners.

#### **Managed Investment Scheme**

The Baywood Forest Investment was registered as a MIS under the FMC Act on 29 November 2016.

#### **Limited Partnership is Managed Investment Scheme**

By consequence of FMC Act definition of "managed investment scheme", the Limited Partnership is the registered MIS.

#### **Deed is pre-eminent Governing Document**

The Deed of Scheme Management is the pre-eminent Governing Document of the MIS, and sets out the rights, obligations and duties of the Manager, the Supervisor, the Custodian and the Limited Partners in relation to the MIS including provisions for compliance with the FMC Act including, but not limited to:

- specific MIS provisions
- management of the MIS by the Manager
- supervision of the MIS by the Supervisor
- custodianship of the MIS's Scheme Property
- financial reporting and appointment and duties of the financial auditor of the MIS.

#### **Limited Liability**

As the Baywood Forest investment is a Limited Partnership, the liability of investors (Limited Partners) is limited and they are only liable to the extent of their capital contributions (funds invested), plus any other obligations expressed in the Limited Partnership Agreement.

## **About Forest Enterprises**

Forest Enterprises is one of New Zealand's leading forest investment companies and is unique in providing both forest management and investment services. Our business is to create wealth naturally for private investors via New Zealand pine plantation forestry.

Our 6,500 investors are mostly New Zealanders, and on their behalf we manage a forest estate of more than 20,000 hectares in the North Island's East Coast regions of Wairarapa, Hawkes Bay and Gisborne. Forest Enterprises is also the property manager of 15,000 hectares of New Zealand forestry owned by an international institutional forestry fund, most of which is FSO® certified.

Since we started in 1972 in Masterton, New Zealand we have remained a locally owned and operated business. We have grown to 28 employees in total —who include the company's five shareholders — professionals in the fields of forestry, accounting and finance, administration, commercial law, and sales and marketing.

Forest Enterprises is the business name for Forest Enterprises Limited (FEL), and its parent company Forest Enterprises Growth Limited (FEG). FEL is the Manager of the Baywood Forest Investment. FEG is contracted by FEL to coordinate and supervise all the field activities relating to the land and trees, at the direction of FEL, a licenced manager of forestry Managed Investment Schemes under the FMC Act.

## The Baywood Forest

## **Property Description**

The terrain of Baywood Forest is mainly medium hill country with steeper areas balanced by easier basins. Ranging in altitude from 80m to a high point of 380m above sea level the majority of the property is about 200 metres. Baywood Forest is in the vicinity of other forests managed by Forest Enterprises providing economies of scale for all forest operations.

### **Climate**

The climate is mild, assisted by the proximity to the coast and low altitude. Annual rainfall averages 1,550mm per annum. Based on information from our neighbouring Pukerewa forest we have used an area weighted average site index for Baywood Forest of 36 metres. The site index is a forestry term for the indication of growth potential.

## **Forest Development Status**

Baywood Forest comprises a net-planted area of 237.1 hectares established in 2000 and completed in 2001 (re table alongside). Each shareholding of 200 shares represents 1.48 hectares of established forest on land owned by the Investors.

GF 19 genetically improved treestocks were used in at a target planting density of 1,000 stems per hectare. Pruning and thinning was undertaken to achieve the maximum volume of clearwood (knot free wood) at harvest, coupled with good tree size and restriction of branch size in the unpruned zone (above 6.5 metres).

Planting year	Net Stocked Area
2000	181.2 hectares
2001	55.9 hectares
Total	237.1 hectares

Areas are based upon aerial photography and mapping undertaken in 2017. Mapping accuracy is + or - 3%. Updated photography and mapping is undertaken during the life of a forest and it is usual for the measured net stocked area to change with each update and the changes can be material.

#### Insurance

Bloomfield Forest is insured until harvest under a special purpose forest insurance scheme, designed to cover key forest risks, including losses from fire, wind, volcanic eruption plus fire-fighting, reestablishment, infrastructure replacement and claim preparation costs. There is a policy excess of \$225,000.

### Manager's Report

The Manager's Report summarises forest activity for the previous and coming year plus other material management issues and is included in the Financial Report. Relevant extracts from the latest Manager's Report for Baywood Forest are included on page 9.

#### **ETS Carbon Lease**

Baywood Forest LP has entered into a business arrangement with a company called New Zealand Forest Leasing Ltd (NZFL), resulting in the carbon in the Post-1989 areas of the forest being leased to New Zealand Carbon Leasing (FEL) Limited, a subsidiary of NZFL, in return for an annual rental.

The participant in the ETS is New Zealand Carbon Leasing (No 1) Limited. It is this company and not Baywood Forest LP that has the ETS liability at harvest. A legal opinion to this effect is available on request.

## How has the projected return at harvest been calculated?

Taken from the Financial Report for the year ended 31 March 2020.

## **Net Stumpage**

The return at harvest is expressed as the net stumpage per hectare. For Baywood Forest this is currently projected to be \$47,392 per hectare (ha) calculated as follows —

Log Type	Projected Recoverable Volume (m3/ha)	Percentage	FEL Price at Point of Sale (\$/m3)	Total Production Costs (\$/m3)	Net Return Stumpage (\$/m3)	Contribution to Stumpage (\$/ ha)
Export						L.
P40	153.2	21%	\$181.00	\$77.56	\$103.44	\$15,849
P30	37.7	5%	\$147.75	\$77.56	\$70.19	\$2,646
Α	329.4	45%	\$139.45	\$77.56	\$61.89	\$20,387
K	95.3	13%	\$125.15	\$77.56	\$47.59	\$4,533
KI	79.9	11%	\$115.50	\$77.56	\$37.94	\$3,032
KIS	37.3	5%	\$102.85	\$77.56	\$25.29	\$944
Totals	732.8	100%			120000000000000000000000000000000000000	\$47,392

## **Harvest Assumptions**

The calculated harvest return is a projection based upon a number of critical assumptions including -

- The log volumes and grades are based on a mid-rotation inventory carried out in 2014. As these figures are derived from low percentage sampling they are subject to material variation.
- A sales scenario based the Port of Gisborne as the point-of-sale has been used and therefore
  assumes demand will exist at harvest time at this destination. Other scenarios will produce
  different stumpage outcomes.
- Once the Partnership's harvest is budgeted to commence within 12 months of reporting date, the
  Forest Valuation for this 12 month period will be based on Forest Enterprises' 12 month average
  log prices prior to reporting date. The Forest Valuation post this 12 month period following
  reporting date will be based on Forest Enterprises' 36 month average log prices prior to reporting
  date. This change in assumption has no impact on the Baywood Forest Valuation as this
  Partnership is not budgeted to commence harvest within 12 months of reporting date. Baywood
  Forest Investment Financial Report 31 March 2020 Page 15 of 26
- Harvesting and Transportation costs are based upon the costs currently being paid by Forest
  Enterprises for current harvesting. These costs reflect the characteristics of the forests currently
  being harvested, which may differ from the characteristics of this forest when it is harvested.
  The financial impact of the relevant characteristics of this forest are unable to be quantified at
  this time.
- The cost of the roading network required at harvest is substantial. An estimate has been made and represents \$10.69/ m3 of the Total Production Costs (\$/ m3) figure shown in the Stumpage calculation below. Harvest is assumed to occur in the years shown.

### **Important**

Every effort has been made to arrive at reasonable figures based upon Forest Enterprises 48 years forestry knowledge, including our current harvesting experience. Investors should be aware that the projections provided will vary over time depending upon many factors and the resulting changes could be material.

## Manager's Report for Baywood Forest

Excerpts from the Financial Report for the year ended 31 March 2020

## **Forest Activity Last Year**

A forest visit was held on 16 November 2019.

The LiDAR (light detection and ranging) mapping program commenced.

## **Forest Activity for the Coming Year**

Provision has been made in the budget for continued maintenance of the tracks and internal access ways, as required in 2020.

## **Changes to Harvest Timing**

The Prospectus for the Baywood Forest Investment projected harvest of all trees at around 28 years in 2028 and 2029. We have now further developed the harvest profile to reflect the expected infrastructure available, modern harvesting practices, and forest growth.

The harvesting for the Baywood Forest Investment is likely to commence in 2028 and be completed in 2031 over 4 years. The projected cashflow and your investment have now been modelled on this basis. However, this is subject to change once a clearer picture of the infrastructure investment in the Gisborne area is known.

These factors which apply to all our managed estate planted during the planting boom of the 1990's, means that harvest will be spread over a longer period. This spreading of harvest activity over a longer period enables the fair allocation of the available limited harvesting infrastructure and resources. This has its benefits. Time in the market mitigates the impact of unforeseen risks such as Covid-19. An extended harvest period creates the environment to respond to these harvesting challenges and achieve the objective of maximising the return.

It may be prudent to manage the harvest of the Baywood Forest with other nearby Forest Enterprises managed forests through sharing resources. More information will be provided to investors closer to the commencement of harvest.

## Change in Discount Rate for the Treecrop Valuation in the Financial Statements

The auditors have reviewed the discount rate we apply to the Treecrop valuation and consider that the 10% discount rate previously used is higher than current industry practice. In light of this, the rate has been changed to 8% We have implemented this new rate and this has the impact of increasing the Treecrop valuation in the Financial Statements.

The discount rate applied to your Investment Valuation of individual share parcels remains at 7.5% after tax.

#### Insurance

The insurance policy for your forest investment was up for renewal on 31 August 2019. As is prudent, we obtained quotes from multiple providers. Having considered the various policies available, we have remained with our existing provider. Insurance Facilitators Pty Ltd, an Australian based specialist forestry and crop insurance provider, and underwritten by SJ Catlin & Others Syndicate 2003 at Lloyd's with a Standard & Poors rating of A+(Strong).

There has been a change to the policy. The excess has increased from a maximum of \$25,000 to 0.75% of the Sum Insured of each Forest Location with Area Damage, subject to a minimum of \$5,000 and maximum \$225,000 in every Single Cause.

To keep the excess at a maximum of \$25,000, the alternative quotes we obtained were more than 3 times the premium and there would have been less cover for wind. Cover terms of the alternative policies were also far less favourable.

## **General Notes to the Cashflow Projection**

Taken from the Financial Report for the year ended 31 March 2020.

The base Cashflow Projection is updated yearly as part of the financial reporting process with the first year's expenditure being the budget for the current year. Regular changes are made to the harvest revenue projection between Financial Reports in accordance with the harvest assumptions on page 8. Generally, changes between reporting periods are only made if separately identifiable and material or to reflect their timing relative to the date of the Investment Report.

The Cashflow Projection reflects our estimate of the cost of the work to be done or services provided, year-by-year through to harvest, generally based upon the work program and prices current at the time of the Financial Report review. Actual costs and timing will vary from the projections as a consequence of changes over time to the work program and the prices; these changes may be material.

Other assumptions (in addition to the harvest assumptions set out on page 8) include —

- It is assumed that the land will be sold in the final harvest year at the current rating valuation.
- No provision is made for the replanting of the areas harvested, other than for trees on the property at the time of purchase. Practically this will occur the winter following harvest and the replanted tree crop sold at the conclusion of harvest (in addition to the land). This will impact upon the timing of the distribution of the harvest revenue.
- It is assumed that Carbon Lease payments are received from the participant company under the Emissions Trading Scheme (ETS). Changes to harvest timing will impact on the duration of the payments.
- The Cashflow opposite includes the annual Investor Administration Fee of \$40 and assumes each investor owns 200 shares ie the \$6,400 figure per annum is subject to a credit or debit adjustment for those investors who own more or less than 200 shares.

Due to harvest practicalities, it is likely that Distributions will be spread over several years.

#### Background

- The Assignor(s) are the owner of the LP Shares and the GP Shares in the Investment.
- On the Specific Terms and the General Terms and Conditions of this Deed and for the consideration specified above, the Assignor transfers to the Assignee the LP Shares and the GP Shares. On the Effective Date, the terms of the Governing Documents registered on the Disclose Register and the terms of the Constitution registered in the Companies Office will bind the Assignee.
- The Assignee(s) wish to grant to Trustees Executors Limited the limited Powers of Attorney which are a condition
  in the Governing Documents of being a limited partner in the Limited Partnership, and a condition in the
  Constitution of being a shareholder in the General Partner.

## Specific Terms

- 4. Tax Treatment If Standing Timber Consideration is >\$50,000: The Assignor confirms that the consideration paid by the Assignee under this Deed is taxable income because the safe barbour under section HG 5 of the Income Tax Act 2007 does not apply. Therefore, the Assignee is entitled to a 'cost of timber' deduction in terms of section DP 10 of the Income Tax Act. The Assignor and Assignee agree that:
  - 4.1 The Assignor will obtain from the Manager details of the value of the standing timber component of this assignment.
  - 4.2 The Assignor will meet the resulting taxation liability.
  - 4.3 The Assignee will be entitled to a 'cost of timber' of the standing timber component of this transaction without additional payment to the Assigner. The Manager will advise the Assignee the quantum of the Assignee's 'cost of timber' entitlement which will be the value of the standing timber component of this assignment advised to the Assignor in subclause 4.1 of this clause.
  - 4.4 In the event that IRD determines a different value of the standing timber component of this assignment to that obtained from the Manager, the Assignor will provide a copy of IRD's determination to the Manager who will then advise the Assignee of the amended guantum of the 'cost of timber'.
- 5. Tax Treatment if Standing Timber Consideration < \$50,000. The Assignor confirms that the consideration paid by the Assignee under this Deed is excluded income under section HG 5 of the Income Tax Act 2007 and therefore the Assignee is not entitled to a 'cost of timber' deduction in terms of section DP 10 of the Income Tax Act. The Assignee acknowledges this taxation status of the assignment.
- IRD Determination: In the eyent that the New Zealand Infand Revenue Department ("IRD") determines otherwise:
  - 6.1 The Assignor will advise the Manager of the change in status of this transaction and obtain from the Manager details of the value of the standing timber component of this assignment.
  - 6.2 The Assignor will meet the resulting taxation liability.
  - 6.3 The Assignee will be entitled to a 'cost of timber' of the standing timber component of this transaction without additional payment to the Assignor. The Manager will advise the Assignee the quantum of the Assignee's 'cost of timber' entitlement which will be the value of the standing timber component of this assignment advised to the Assignor by the Manager.
  - 6.4 In the event that IRD determines a different value of the standing timber component of this assignment to that obtained from the Manager, the Assignor will provide a copy of IRD's determination to the Manager who will then advise the Assignee of the amended quantum of the 'cost of timber'.

#### GENERAL TERMS AND CONDITIONS

- Execution in Counterpart: This Deed may be executed in any number of counterparts, each of which when executed and delivered shall constitute a duplicate original, but all counterparts together shall constitute a single agreement
- 2. Definition of Independent Trustee: For the purposes of the Governing Documents and this Deed, a person is an independent trustee if that person has no interest in the assets of the trust other than as a trustee. For the purposes of clarification (but without limitation) a person is not an independent trustee and has an interest in the assets of the trust if that person is a beneficiary or discretionary beneficiary in relation to the trust. All trustees acknowledge the need to immediately inform the Manager of changes to trustees, including appointments and retirements.
- Same Definitions in Governing Documents. All terms defined in the Governing Documents bear the same meaning when used in this Deed unless the context requires otherwise
- Interpretation: Words importing the singular number include the plural and vice versa and where obligations bind more than one person those obligations bind those persons leadly and severally.

#### Assignment and Covenants

- Transfer of LP Shares: On soffement of the assignment, all rights and interest in the LP Shares are vested in the Assigner effective from the Effective DNs.
- Transfer of GP Shares: On settlement of the assignment, effective from the Effective Date all rights and interest in the GP Shares are vested in the Assignee in accordance with the requirements under the Governing Documents and the Constitution.
- 7. Tax Loss/Tax Profit: Any tax loss incurred by the Assignor or tax profit attributable to the Assignor in the Investment in the financial year in which this assignment takes place will at the end of the financial year be treated as a tax loss incurred by the Assignee or a tax profit attributable to the Assignee, as the case may be, despite the Assignee not being a limited partner at the time the tax loss was incurred or the tax profit was made.
- Assignor's Obligations to Effective Date: The Assignor
  covenants with the Assignee that the Assignor has up to the

- Effective Date observed and performed all obligations required to be observed or performed under the Governing Documents in respect of the LP Shares and under the Constitution in respect of the GP Shares.
- 9. Assignee's LP Share Obligations from Effective Date: The Assignee covenants with the Limited Partnership and the other United partners in the Limited Partnership that from the Effective Date the Assignee will observe and perform all obligations contained or implied in the Governing Documents and will keep indemnified the other limited partners in respect of any obligation required of the Assignee with respect to the LP Shares and otherwise in terms of the Governing Documents.
- 10. Assignee's GP Share Obligations from Effective Date: The Assignee covenants with the General Partner and the other shareholders in the General Partner that from the Effective Date the Assignee will observe and perform all obligations contained or implied in the Constitution of the General Partner with respect to the GP Shares held by the Assignee.
- Assignee must not be a Minor: The Assignee covenants with the Limited Partnership that for the purposes of the enforceability of this Deed the Assignee is not under the age of 18 years.
- 12. Overseat Person: The Assignee acknowledges that if the Assignee is an overseas person this Deed shall be of no force or effect unless the General Partner in its absolute discretion consents in writing to the Assignee holding the LP Shares. If the Assignee is not an overseas person on the Effective Date but subsequently becomes an overseas person while being a Limited Partner, the Assignee must immediately give notice of that fact to the General Partner and may be required to transfer all or some of the LP Shares and GP Shares to a person who is not an overseas person at the written direction of the Manager.
- No Encumbrance: The Assignor warrants that the LP Shares and the GP Shares are unencumbered. The Assignee warrants the LP Shares and GP Shares will remain unencumbered.
- 14. Instruction to Register Transfer: The Assignee instructs the Manager to record the vesting of the LP Shares in the name of the Assignee (together with any joint holders) in the register of limited partners in the Limited Partnership maintained by the

Manager and to notify the Registrar of the change in terms of Section 59 of the Limited Partnerships Act 2008. The Assignee also instructs the Manager to record the vesting of the GP Shares to the Assignee in the register of shareholders maintained by the Manager.

#### Limitation of Liability of Independent Trustees

15. Limitation of Liability: Any person who is an independent trustee of a trust executes this Deed in their capacity as an independent trustee so that their liability will not be an unlimited personal liability but will be restricted to the funds and assets of that trust in their hands or under their control at the time demand is made on them for payment, performance or indemnity under this Deed or the Governing Documents.

#### Applicable Laws

16. Compilance: This assignment is subject to the obligation of the Assignee to provide the Manager with any documentation and information the Manager may request from time to time in order for the Manager to undertake any action required to comply with all laws, rules, codes, regulations and other legal requirements in force, including the Limited Partnerships Act 2008, the Financial Markets Conduct Act 2013 and the Anti-Money Laundering and Countering Financing of Terrorism Act 2009 ("Applicable Laws"). The Assignee also agrees to such documentation and information provided to the Manager being disclosed to any person to enable it to be reported and used in compilance with the relevant Applicable Laws.
